

Seminar Invitation to "Emerging Security Threats Solved"

What do the **FBI** and **Salvation Army** know about securing their data and ensuring employees are safe online? They trust highly reliable network security solutions from WatchGuard®.

Attacks can happen anytime, from anywhere. Networks in today's fast-paced world need unified, multifaceted protection from malicious threats, backed by strong performance and complete reliability. There are many decisions to be made. Let us help you quickly find the information you need to identify the best network security solution for your company.

Join WatchGuard for a highly relevant lunchtime seminar to learn how to protect your business against emerging threats while decreasing network costs and complexity.

[Reserve Your Seat Now](#)

Date: Wednesday, **March 4, 2009**

Time: **11:30 am -1:30 pm**, lunch provided

Location: **WatchGuard Corporate Offices**, 505 5th Avenue South, Suite 500, Seattle, WA 98104

Corey Nachreiner, CISSP and WatchGuard Senior Network Security Analyst, will present today's security threats including live hacks, dangerous trends to be aware of, and how to best protect your employees and customers from being attacked.

For over a decade, WatchGuard Technologies has provided reliable, easy-to-manage firewall and VPN appliances to hundreds of thousands of businesses worldwide.
